How We Are Different

PACE offers professional and applied post-degree level programs. We serve those who wish to specialize in specific areas, and are focused on their goals. PACE graduates enjoy a high employment rate and are very satisfied with their education.

THE PACE ADVANTAGE

The advantage we have over the competition is due to the intense academic rigor we adhere to, blended with hands-on experience throughout the programs. These two important elements enable our students to learn much more in the same time frames and make them better qualified for employment upon graduation.
