MODERN-DAY MANAGEMENT

PART-TIME TRAINING PROGRAM

ACQUIRE MANAGEMENT TOOLS THAT WILL BENEFIT YOU THROUGHOUT YOUR CAREER!

The Modern-Day Management training program is comprised of 10 workshops distributed over 10 days of training covering topics that will allow you to become a more effective manager. The learning activities will give you the opportunity to refine essential leadership competencies and to develop skills that will enrich your professional life.

THIS TRAINING PROGRAM IS DESIGNED FOR:

- Entrepreneurs
- Middle managers
- Team leaders
- Supervisors
- Anyone who aspires to a management position

CUSTOMIZED TRAINING

We can adapt or develop training tailored to your particular needs. All our training activities can be offered at our facilities or at your workplace.

Contact us for more information.

TESTIMONIALS

"I really enjoyed the Modern-Day Management program at the Université de Moncton! Every single module has been relevant to my work as a Manager and after every module, I leave with knowledge that I can put to good use right away.

Denis Guitard

This seems to have been an overall guiding principle and I see it as one of the main reasons behind why the program has been so impactful for me. The trainers are all top notch and the facilities at UdeM are excellent.

This program provides a great deal of value for upcoming, new and even seasoned Managers. It was recommended to me as an excellent program and I will be recommending it to others as well!"

Denis Guitard

Canadian Food Inspection Agency

"This course has proven to give insight to some challenging management struggles. The small class size provides the opportunity for information and experience sharing. Thumbs up!"

Justine Waldeck

Village of Perth-Andover

I took the Modern-Day Management course as I virtually have no management training, and I ended up in a management position 3 years ago.

The participants of the program presented a wide variety of experiences and industries to draw upon. I was used to taking professional training programs with people who did the same or similar jobs as myself, but this was different. It was a learning opportunity as well as a forum to develop meaningful connections across industries.

Each module was useful in their own way. They presented tools and strategies that managers and supervisors in any industry can use to manage staff, time, and resources. The classes are quite interactive and the facilitators are experts in their respective fields.
